

JOHN JAIR ROJAS

FULLSTACK WEB DEVELOPER

PERSONAL PROFILE

I characterize myself as a creative person, who contributes to the fulfillment of the proposed objectives. I can work under pressure and manage labor relations for optimal and efficient teamwork. I have a great sense of responsibility and fulfillment, I strengthen my acquired knowledge every day, I have a variety of technological knowledge used today and I update myself on them every day.

I want to contribute to a company and provide my knowledge for global and personal development by working as a fullstack or frontend web developer.
